Summary

Experienced Web Developer, +6 years of coding expertise, specializing in front-end and back-end technologies. Passionate about delivering hands-on training and simplifying complex concepts for learners of all levels.

Education

Faculty of Computers and Data Science,
Alexandria University (2025 - 2028)

Volunteering Work

Hello World Community at FCDS

- Guided students in learning web development fundamentals and best practices.
- Provided mentorship, answered questions, and helped solve coding challenges.
- Ensured students followed the correct learning path and improved their technical skills.

Google Developer Groups On-Campus, FCDS

- Actively participated in workshops, tech talks, and networking events.
- Engaged in community activities to enhance skills in web development and emerging technologies.
- Collaborated with peers and industry professionals to stay updated with the latest trends.

Projects

Quote Tab – Chrome Extension

[GitHub Repository](#)

- Developed a Chrome extension that enhances the new tab experience with a visually appealing design.
- Features include customizable backgrounds, daily changing quotes, and a built-in to-do list.
- Designed for a smooth user experience with personalization options.

Photography Portfolio Website

[Live Site](#) | [GitHub Repository](#)

- Developed a four-page portfolio website for a photographer, including Home, About Me, Gallery, and Contact Me pages.
- Designed a visually appealing and responsive layout to showcase photography work effectively.
- Implemented smooth navigation and an intuitive user experience.

Customize.css – Reset Css & Html Elements

[Live Site](#) | [GitHub Repository](#)

- Created a CSS library that resets and standardizes HTML & CSS elements for a consistent design.
- Provides predefined styles to improve cross-browser compatibility and streamline development.
- Helps developers start with a clean and structured foundation for styling web projects.
